FOREIGN SUMMARY.

The new Collins steamship Adriatic, made a trial trip from New York, and thoroughly satisfied the competent gentlemen on board that she is the fastest steamship affoat. Her greatest speed was eighteen nautical and twenty-one statue miles in one hour and four minutes, using only about two-thirds of her available steam, and about half laden. She sailed for Europe on Saturday, Nov. 28. The New York Herald says the Adriatic is the largest steamship ever built in this country, and without exception, the largest wooden vessel in the world. Her length is 354 feet; breadth of beam 50 feet; depth of hold, 33 feet 2 inches, and Custom House register 5,899 tons.
The beauty of her lines is unparalleled, and may well be considered the crowning monument of the genius of George Steers. The k enness of her bow with wedge-like sharpness extending back nearly fifty feet, and the graceful lines of the waist and stern, as she sits with swan-like case upon the water, notwithstanding her gigantic preparations. standing her gigantic proportions, present a specimen of symmetric grace unequalled in naval architecture. She is brig rigged and without a bowsprit, and has hurricane, main and spar deck, below which are the berths of the waiters, and storerooms which are taken from the space allotted to freight. Further down is the hold, for the stowage of cargo. Her upper decks run the whole length of the ship, affording a fine promenade." There are eight principal boilers, having 18,000 perpendicular iron tubes, and are arranged in sets of four, forward and aft of the engine. The whole number of furnaces is forty-eight, there eing six to a boiler. There are two extra boilers, with brass tubes, to be used in any emergency. The water wheels are forty feet in diameter, of wrought ron, and each has thirty-two paddles, 12 feet in ength. The shafts are 38 feet in length, 271 inches ameter, and weigh 34 tons. The actual propellng power of this enormous engine is estimated at 2,800 horses. The Adriatic has eight more furnaces and two feet more stroke of piston than the Persia. especting the consumption of fuel, the probable rate

of speed, &c., the engine builders prefer to make no predictions, being satisfied to await results. The dimensions of the hull are as follows: Length over all - - - 354 2-3 feet Beneath the saloons are the freight decks, where 1,000 tons of cargo can be stowed and 1,200 to 1,400 tons of coal, besides water tanks for 10,000 gallons, exclusive of the ample provision made for a supply of water by condensation from the engines.

THE SAPEST INVESTMENTS .- In the long run, those men get to be the richest, as all experience proves, who invest most of their surplus capital in good mort-gages and real estate. It is astonishing how fast a fortune accumulates, even at six per cent., if dividends and rents are invested quarterly, or even semiging before the public this course of pro-it becomes contagious, and likely to cause or never bring loss; and hence there is no drawback trouble and dissatisfaction among our on the compounding of interest. The fact is notorious that, of the l'hiladelphia families which were rich a century ago, only those remain rich that keep the bulk of their wealth in real estate. No business man can afford—for any long period—to pay two per cent. for money; to demand such high rates is, therefore, not sound policy in the capitalists; and the history of the rich in any city, if traced back for a hun-dred years, affords abundant proofs of this. It is wiser, believe us, not "to kill the goose that lays the golden eggs."

Will be sold at public auction, on the ground, in suitable build g lots, all that Lot of Land on Emma street, known as the King's Garden, or "Pa Pelekane." The above lots are in a healthy and convenient situation, and are well adapted for residences for merchants and others doing business in Honolulu. A Pinn of the Lots to be seen at the Post Office, and at the Of-Terms at sale. Honolulu, Jan. 13, 1858.

WHARF LOTS AT AUCTION!

WHARF LOTS AT AUCTION:

TO BE SOLD BY PUBLIC AUCTION, on the New Esplanade, on the 13th of May, 1858, the leases of ground lots for One Hundred Years, (the rate to be adjusted equitably by appraisers mutually chosen at the end of every twenty-five years.) of six lots, to be built upon of incombustible materials, according to a plan to be seen at the office of Mr. R. A. S. Wood, Superintendent of Public Works.

The six lots extend in line from the premises of Messrs. James Robinson & Co., with an esplanade in front of 143 feet wide, along the margin of which goods can be landed or embarked.

Purchasers of the ground lots will have to pay only the rent of each lot, quarterly, semi-annually or annually, as may be arranged on the day of sale; and in the material and style of their buildings to conform to the general plan laid down by the government, which has for its object uniformity in appearance, the convenience of the public, and safety from fire.

The six lots are of the following dimensions, viz: 4 lots, each 60 feet frontage by 145 feet deep; 2 lots, each 56 feet frontage by 145 feet deep.

TO BE SOLD ALSO, on the same day, the leases of nine ground lots for the same period, in rear of the marine lots, and lying between the premises of James Robinson & Co. and Fort street, the plans and drawings of which can be seen at the office of the Superintendent of Public Works, and at the offices of Messrs. A. P. Everett and J. F. Colburn, Auctioneers.

[CIRCULAR.] California Brandy! VINTAGE 1856.

CANDLES, in great variety. 82-tf

THE UNDERSIGNED OFFER FOR SALE quantity to suit purchasers. This Brandy is guaranteed to be a pure distillation of the juice of the Native Grape, and possessing in an eminent degree all the aroma and delicacy of flavor for which the California Grape is so highly renowned. Competent judges have pronounced the quality to be fully equal to the best French Brandy; and the Public are assured that not only the Wine from which this Brandy is made, but also the construction of the stills, and the whole modus operands, are precisely the same as used in France; in fact, the principal distiller himself has been for many years foreman of a firm celebrated for their Brandies in Cognac. We trust that a discerning public will appreciate the importance of the introduction of

as a substitute for the vile poisonous trash known 52 mixed brandy, with which our market has been flooded. The bloated, bleared and disgusting specimens of humanity that we meet at every step, sufficiently attent the effects of the deleterious Oil of Cognac, and the no less poisonous Fusil Grain Oil, contained in the so-called pure spirits used in the adulteration of genuine the so-called pure spirits used in the brandy at less than half the cost of French brandy of the same grade, and they confidently invite a trial of its quality, by sample or otherwise; believing that the people will sustain them in their endeavors to introduce our Home productions, and also to check the torrent of poison which has, up to this period, deluged our state. To Physicians and others, wishing a pure article for medicinal purposes, we can confidently recommend our California brandy, (even in preference to French,) on account of its undoubted purity. To the public at large we will simply say, var it!
